DISCLAIMER:

Even though Vacationer Caravans endeavours to ensure that every representation of our caravans is true and correct at the time of printing, at times things may change. Specifications and colours of materials may be updated due to change of suppliers, discontinuation of the product, a product recall, supply chain issues etc. Vacationer Caravans also reserves the right to change the appearance of the caravans from what is shown within this brochure through different decals or cladding due to customer demand.

Vacationer Caravans reserves the right to change model availability, model specifications, designs, layouts and other aspects of our products and services, without prior notice.

For the latest models, specifications, designs and layouts, always consult your dealer.

VACATIONER CARAVANS - WELCOME

About Us

We are one of Australia's leading manufacturers of quality off-road, semi-off-road and touring aluminium frame caravans.

Vacation Caravans is proudly Australian-made and we are manufacturers of premium-built caravans for any lifestyle. Known in the industry for being a leader in premium-quality, Vacationer Caravans is also known for its distinctive design and industry leading technology.

Our selection of off-road aluminium frame caravans have an unrivaled ability to traverse the Australian outback. With an extensive list

of comfort inclusions, off-road suspension and the benefit of being ALKO-tested, your next adventure is no longer just a dream.

At Vacationer, we pride ourselves on our strong relationship with customers and our commitment to continuously supporting our strong following through our comprehensive after-sales support.

"Every caravan we build, we build for Australian conditions and with the most suitable materials.

We understand what our caravans mean to our customers and we make sure that they are built to match both taste and expectations.

You just have to see one of our caravans to understand why we at Vacationer have such a dedicated following."

*Matthew Simpson
Owner*

BUILT TO ENDURE

Manufacturing

ALUMINIUM FRAME

Our aluminium frame allows our caravans to thrive in the harsh Australian outback and ensure that the caravan has a longer usable lifespan.

Aluminium frames are better designed for off-roading, plus they have the benefit of not a non-rotting structure should any water ingress occur.

FIBREGLASS HONEYCOMB FLOORS

All Vacationer Caravan models now come with a Fibreglass Honeycomb Floors.

The Fibreglass Honeycomb Floors have a layer of HONEYCOMB CORE sandwiched between two FPR Sheets, providing a non-rot floor designed to take on demands from everyday use.

PREMIUM QUALITY

We use the best and most suitable materials and suppliers for our builds. This selection is driven by both internal requirements and experience from our customers.

Vacationer Caravans follows a strict quality management process that is rigorously implemented, ensuring that the end product is worthy of the badge.

UNDERBODY PROTECTION

If you are planning to take your caravan off-road or planning to tackle a loose gravel road, underbody protection is a must!

Our DAKAR range have this protection as standard and it can be added as an option on other models.

VACATIONER CARAVANS
